How to Use Your Student Organization Listserv

Each Student Organization is assigned two email listservs. One is externally facing and is connected to the Law School's Student Organization Directory. This email allows people outside of the Law School to contact your group.

Your second listserv is for members only. This is a list for internal communication between your board and your members.

Both lists are accessed through lists.uchicago.edu. Your president has been provided access to these lists and should log-in on the lists.uchicago.edu to access your specific lists.

Steps to Access Your Lists:

1. Check Here for the Name of Your Group’s Listserv
2. Visit lists.uchicago.edu, log-in and search for your listservs by name.
3. Confirm that the owner of your lists are correct.
4. Add/update/correct your members only list.
